

Minimize Costs. Maximize Uptime.

• For Gyms

*“Our gyms rely on EKEDC and generators, but soaring energy costs make this setup unsustainable. **We need a more efficient and reliable power solution.**”*

Operations Executive, Gym Chain

Across Africa, gyms keep people, athletes, and communities active and healthy.

Unstable grid supply, rising fuel costs, aging backup systems, and energy-hungry equipment make power management one of the toughest challenges for gym operators. Every extra hour of generator use and every minute of downtime impacts not just expenses, but member experience and retention.

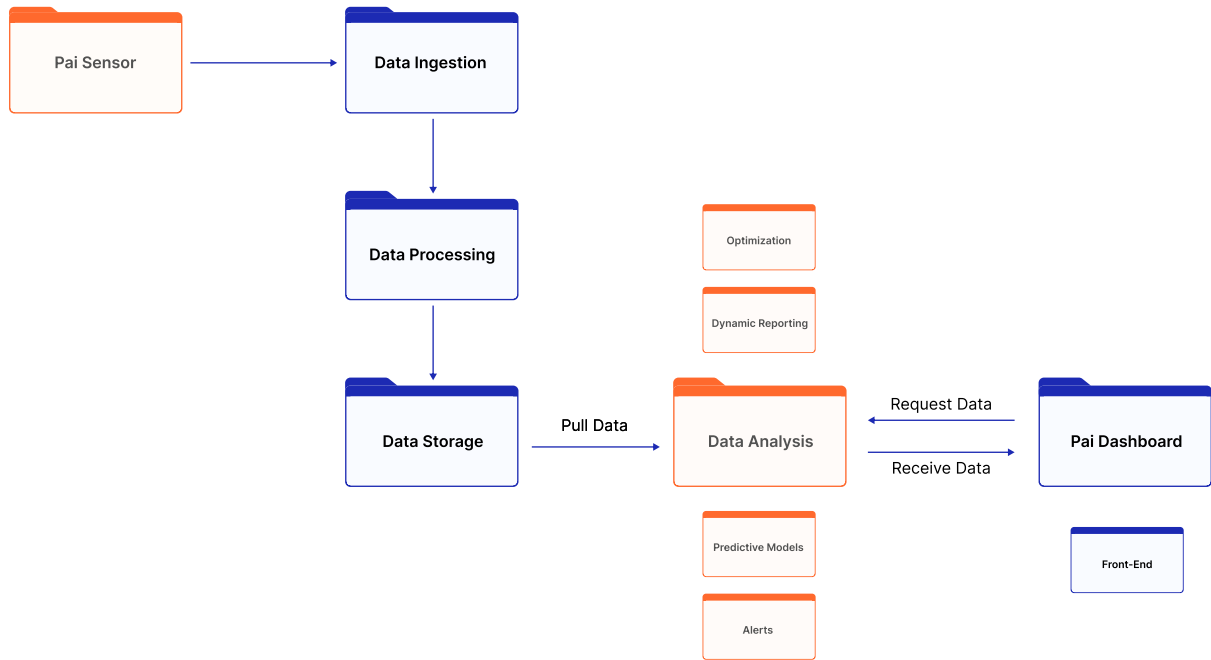

Managing a gym isn't just about tracking power usage. It requires understanding what's happening in real time and having the systems to respond automatically. That's where Pai Enterprise comes in.

How can Pai Enterprise Help?

- ✓ Monitor and control fuel use across your gym to cut waste and lower operating expenses.
- ✓ Spot energy and load problems early before they cause unexpected gym downtime.
- ✓ Easily view and manage all your gym power sources through one simple dashboard.
- ✓ Right-size your backup systems to reduce generator usage and extend equipment lifespan.
- ✓ Get real-time, accurate energy data to cut power costs and improve efficiency.
- ✓ Automatically switch between your gym's power sources in real time to keep operations running smoothly.

How it works

Pai Enterprise is an **AI-powered energy management and control platform** that helps you spend less on operating your power supply sources while maintaining the maximum uptime needed to sustain and grow your operations. Using real-time and historical data, **Pai Enterprise predicts power events to reduce costs (e.g outages, surges, anomalies), optimizes your power supply mix, and automatically switches between different power sources for uninterrupted operations**

Your Gym Deserves Uninterrupted Power

Every gym keeps a community active. Pai Enterprise ensures your facilities never go dark by giving you real-time visibility into your power mix so every decision is guided by data rather than assumptions or guesswork.

Efficiency That Strengthens Your Gym

Pai Enterprise learns your gym's unique energy patterns and helps you run equipment more efficiently. You lower fuel use, protect backup systems, and keep your facility operating reliably at a reduced overall cost.

Clarity That Keeps You Running

Running a gym is complex, but energy oversight should not be. Pai Enterprise highlights what matters, helping your team prevent downtime, cut waste, and keep daily operations steady.

Awareness When It Matters Most

Pai Enterprise alerts you the moment your power setup changes, helping you respond fast, reduce downtime, protect your machines, and keep your gym operating without interruptions.
